

The Crank-Out Sheet Rack

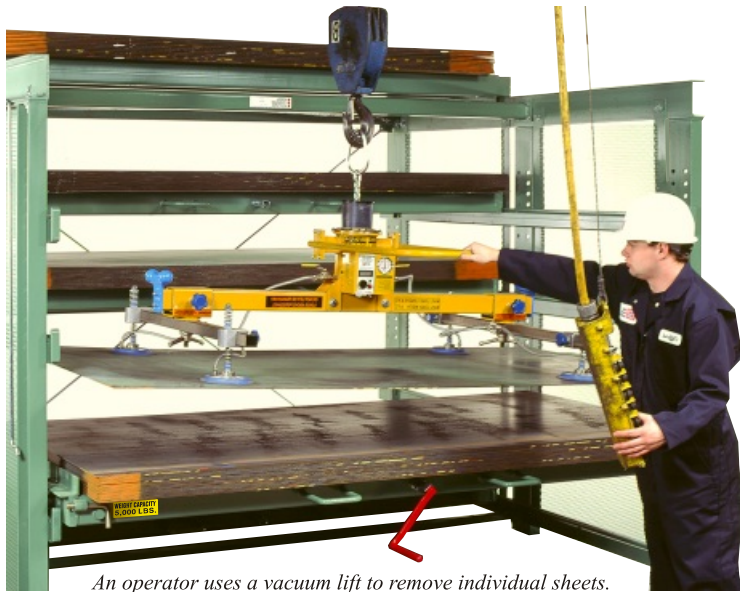

**New Drawer Design
Tames Heavy Loads**

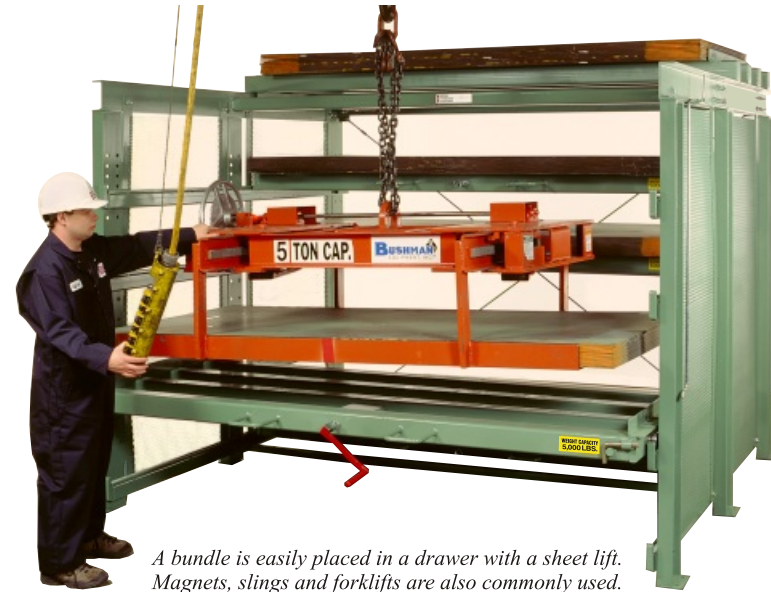

**Just 10 lbs. of torque rolls out
a fully loaded 5,000 lb. drawer**

**10,000 lb. drawers are
now available!**

**STEEL
STORAGE
SYSTEMS**

An operator uses a vacuum lift to remove individual sheets.

A bundle is easily placed in a drawer with a sheet lift. Magnets, slings and forklifts are also commonly used.

- **Greatly improves density, accessibility and safety.**
- **Ergonomic drives provide smooth and easy movement.**
- **Compliments lasers, shears and punches for an inexpensive work cell.**
- **Store any flat product including plate, fixtures and dies.**
- **Optional modular design for field adjustable drawer heights.**

New drawers can be retro-fitted to existing SSSI Sheet Rack models!
